good to playster on the colde postu
me and good for a colde stomake.

Thernayne is hote and by ithe seconde degre It is good against al maner of entiles of benymist the pacpent dynke it tempered with while and stampe the herbe & lap it

oneuerp

on every maner of bytyng of beny mous beste/ and it well brawe out the benym and faue the foze / who bleth it / it wpl make good breth and do away flynke of the mouth. Also who that hath & feuer tercya take. iti. rotes and, iti. croppes of the same herbe and stampe them & temper the with fapze clene water and gruett to the pacient to bike. Miso who that hath the feuer quar tapnelet hymtake the fame dike. Also it is good for the stomake / & lyuer/aloges. Also take veruapn Betapne, a Sacfrag and of euery of them lyke much and flampethe with wyne tempered and thes is good for them that hath the ftone. Alfo they that bere beruapn bpon the they hall have love and grace of greate maysters and they shall graeut hihjaskyng pthis askyng be good and ryghtfull.

Water cresses.

Other cresses be hote a dipe in the seconde des gre seth them in water by the selfe and dipuke it of sethe it in selhe / a

suppe of the brothe and it wyl clese well the inwarde membres. Also it is good againste the Strangulyo

aud the flur of the lame.

This herbe bereth a flower like to the hope and after the flower he bereth a grene bery / and it bath a greate rote / the bertu of the herbe is most in the rote / it is good for sinowes that be shronken or cut to make them sople and to have their owne course in they, proper kind. Goto froto of wylde Reppe that to lyke woddynd and make a hole in the middes of the rote that course it wel agayne that no ayer go out.

nor that no capne go in nor water !! powder noz the fonne come nat to much tout, let it flate fo al a night at a day tha after that go to ir a thous Mai fynd therm a certapne lycour, F take out that lycoure with a fpone and put it in-to a clene glas and to fo every day as longe as thou fenbeste ought in the hole a this must b be done in the moneth of Appell or Mare, than anoput the fore therewith agapuft the fper/than wete a linen clothe in the same licour and lappe it about & foze and it halbe hole in Chorte space on warantyso by the grace of god. for the gowte a foueray que medecone/ Take the rote of wylde Aeppe and the rote of d wyld Docke sodden by it selfe and cut them ithen peces a parea waye the btter tynd and cut the in quarters/tha boile the in clene wa ter. ii.oz.au.houres/than flape the ma mozter as imalas can be / tha put

ed put therto a quantite of fote of a chymny and temper them with the mplkrof a cowe that the bece us of one coloure than take the . ppffe of a man that is fastinge and make a play fter therof and bople tt together and ashote as pe mare fuffer lape it to the greuaunce a d Daye and a night a fo do. ig. tymes and it hal heale the on warantple bpthe grace of God. @: 200
